Arterial Screenings Can Save Lives

A stroke results from the disruption of adequate blood flow to the brain. The carotid arteries are the main blood suppliers to the brain. Abdominal aortic aneurysm (AAA) is a condition in which the aorta (the largest artery in the body) is weakened and enlarged within the abdomen. A ruptured AAA can cause blood loss, shock, and death. Peripheral Arterial Disease (PAD), is hardening of the arteries. People with PAD may not only have problems related to poor circulation to their legs, but also have an increased risk of heart attack, stroke and death.

Call for your appointment today!

(319) 337-3604

Same day results and a healthcare professional will provide information on a healthy lifestyle.

Individual Screenings

- Stroke/Carotid Artery Screening - \$40
- Abdominal Aortic Aneurysm Screening - \$40
- Peripheral Arterial Disease Screening - \$40

Package

Complete Vascular Screening (3 tests) - \$100.00
